SHIRT MEASUREMENT			Neck				Shirt Length					
			<input type="text"/>				<input type="text"/>					
	Neck: Place tape measure around base of neck. Measure neck as a true natural measurement, without pinching any skin or adding any slack, and then add 1/4" ease.				Shirt Length: Place the tape measure under the right front collar leaf, at the intersection of the front shoulder and neck point. Measure down to desired shirt tail length.							
			Chest				Yoke					
			<input type="text"/>				<input type="text"/>					
	Chest: Place tape measure around the chest, high up under the arms and over the shoulder blades. Customer's arms should be at his side. The tape measure should be snug, so it does not droop down, (but not tight) and level over the fullest part of the chest.				Yoke: Place tape measure on "top" of the shoulders. Measure from the edge of the left shoulder (A) across to the prominent neck bone, located at the center of the back of the neck, (B), continuing to the edge of the right shoulder (C).							
			Waist				Sleeve					
			<input type="text"/>				<table border="1" style="width: 100%; text-align: center;"> <tr> <td>Left</td> <td>Right</td> </tr> <tr> <td><input type="text"/></td> <td><input type="text"/></td> </tr> </table>		Left	Right	<input type="text"/>	<input type="text"/>
	Left	Right										
	<input type="text"/>	<input type="text"/>										
Waist: Have customer assume a normal stance and place tape measure around the belly, located below the rib cage. For customer with a corpulent stance the tape measure should be placed around the fullest part of his stomach.				Sleeve: Place tape measure at the base of the neck (prominent bone) extending over the shoulder, down the outside of the arm to the wrist.								
		Seat				Wrist						
		<input type="text"/>				<table border="1" style="width: 100%; text-align: center;"> <tr> <td>Left</td> <td>Right</td> </tr> <tr> <td><input type="text"/></td> <td><input type="text"/></td> </tr> </table>		Left	Right	<input type="text"/>	<input type="text"/>	
Left	Right											
<input type="text"/>	<input type="text"/>											
Seat: Place tape measure around hips at the hip bone area. Tape should be snug and level.				Wrist: Place the tape measure around the wrist bone with a slight ease (If he wears a watch, add 1/4 more to the wrist he wears his watch on).								

Please Read Carefully. This form cannot be faxed or mailed in with your order.

Please use it as a guide to complete on your own or with the help of a local tailor. Once you have completed the print out form, you will need to enter this information into our online measurement form to submit your custom dress shirt order. If you have started an order on our site and saved your information, you can save time by clicking order status at the top of your screen and logging in to complete your order. If you have not started an order, you can simply click order now to begin designing your custom shirts.
